## How to Begin Research

Compile a list of subject key words

Synonyms

Check the spelling

Start Small

Find between 5-10 resources that match  
your subject. Analyze these sources for  
your paper before gathering additional  
information.

**Create a rough outline.** Based on  
the information you have already  
collected write down a summary of  
what you want to cover in your paper.

### Where to Look for information

**Books** - in depth overviews or historic  
background on a subject

**Database** - For scholarly research  
articles that give specific case data or  
recent developments in an area

**Internet** - for demographic statistics or  
current information that has not yet  
been published academically

*Call 406-275-4875 for off-campus database  
access.*
